

## Y.M.C.A. AT FRONT

Two Men Who Were Here Report  
From Manila.

## PERFORM PRACTICAL SERVICE

Follow Up the Lines With Reading  
Matter and Writing Material—  
In Camp and Hospital.

Secretary Coleman of the Y. M. C. A. has received the following interesting report from the Association workers stationed in Manila:

Dear Friends:—Our last letter left the troops holding a line of intrenchments around the city, some fifteen miles in length. This position was maintained until March 25th, when a general advance along the north was begun and has continued with short intervals of rest up to the present time, the troops having advanced as far as San Fernando, forty-five miles north of Manila and fifteen miles beyond Malolos, the former insurgent capital.

The Manila and Dagupan Railway, which traverses the region of the severest of the conflict, has been made the base of supplies, the trains following the course of our advancing troops as fast as the Engineering Corps can repair the section of track torn up by the retreating Filipinos. By the time the advance had been made as far as Malolos some 4000 men had been scattered by companies along the railway to protect the base of supplies. One regiment is stationed at the water works and nearer the city, for its protection, the line of intrenchments vacated March 25th, are held by some of the newly arrived regiments of Regulars. This in a few words defines the location of the troops.

Since the last report our main work has been the continuance of the distribution of stationery and literature. The field is large, extending from Pasig, five miles south, to as far as the Bagbag river, 35 miles north, but as far as possible the troops were reached, special attention being given to the incomplete regiments which have no chaplain to do such work for them.

To enable us to more readily reach the men we were kindly issued general passes by Gen. Otis, which also permit us to use the railway, there being two trips daily between Manila and the present terminus at the Bagbag river.

Some of our trips occupy several days; for instance, when Malolos was taken and the advance halted for several days a good supply was taken up on the train and temporarily stored at the Commissary Depot. Three days were spent visiting the different regiments and disposing of the supplies. On such occasions a blanket and ration outfit are carried, when one is always welcome to the company mess and to occupy the shelter tent of some man who happens to be on outpost duty. For such trips as to the water works, Caloocan or Pasig the supplies are usually taken in one of the two-wheeled carts or carriages, and the distribution along the lines done on foot.

Various supplies were sent to the men at Negros, Cebu, Iloilo, Corregidor, and an effort made to supply those at the First Division Hospital. During March and April the following were distributed:

Envelopes, 20,500; writing paper, 53,000 sheets; New Testaments, 350; papers, 2300; Colportage books, 1050; magazines, 850.

The services at the Philippine theater on Sunday mornings, at which we have been assisting with our organ and hymn books, etc., still continue. The attendance at the service at the First Division Hospital has been increasing, an average of between 75 and 100 of the convalescents gathering every Sunday afternoon. The influence of the meetings extends far beyond this, however, as many of those confined to the wards can hear the singing and listen attentively as the familiar tunes greet their ears.

The prospects for the future seem encouraging. Regular troops are constantly arriving so that should the Volunteers be sent home, as they justly deserve, there would still be a large army gathered here. During the rainy season, which is close at hand, many of the troops will no doubt be located in the city, even should peace be declared. In such a case steps will be taken to secure a suitable building to be used much as the large tent was, with reading and corresponding from religious services, etc.

We are pleased to report the arrival of Rev. Jas. B. Rodgers, for ten years a missionary in Brazil, who has come to engage in mission work representing the Presbyterian Board.

We ask for the continued interest and prayers of those in the Homeland for this work in Manila. Increased supplies of good current reading matter

would be appreciated. Let it be remembered that most of the Regulars, many of them recruits, are young men, the average age being 23 years, and that the work of the Army Young Men's Christian Association appeals to them.

We are, yours respectfully,  
F. A. JACKSON,  
CHAS. A. GLUNZ,  
Secretaries.

Quietly Wedded  
(From Tuesday's Daily.)

Ida B. Sturgeon and Henry Waterhouse were quietly married at Kamehameha Girls' School yesterday afternoon. The only spectators were relatives and the teachers in the seminary. The bride is a lady greatly admired for her lovely character. She has been a teacher in the school for several years. Henry Waterhouse is one of the best-known men in these islands, and is liked everywhere by everybody. Mr. and Mrs. Waterhouse, after the marriage ceremony, drove to their home at Pearl Lochs Peninsula. In a short time they will go abroad.

## EDWARD DOWSETT.

Death of a Native Son High in  
the Esteem of All.  
(From Tuesday's Daily.)

Edward Dowsett died at the family residence, Palama, at 8:20 o'clock last evening. The immediate cause of death was fever, with which he had been prostrated for the last several days.

Edward Dowsett was 35 years of age at the time of his death, having been born in Honolulu March 31st, 1864. His father, James I. Dowsett, died on June 14th of last year.

"Ned" Dowsett, as he has always been known to his friends, was one of Hawaii's favorite sons. Ever cordial, courteous and gentlemanly, he was liked by all who knew him. Since his father's death up to a short time ago he has spent his time in looking after the affairs of the estate. He had received his early education here and completed it abroad. About three months ago he was taken ill and was compelled to give up the business affairs which he was conducting. He was a member of the Pacific club, where he was always most popular on account of his genial, sunny disposition.

At the time of his death he was surrounded by members of the family, of which three brothers and seven sisters survive him. Dr. Humphris was the physician. The funeral will probably be held tomorrow.

## Amarino Wins.

The match race for \$500 a side between Amarino and Antidote was run yesterday and won by the former in easy fashion in 1:47½. There were very few spectators and no money changed hands excepting the purse. Amarino was the general public favorite.

## Land Exchange.

The Cabinet yesterday approved the proposition of the Catholic Mission to furnish enough land between Fort street and Garden Lane for the widening of Beretania street, in exchange for a piece of property on Punchbowl.

WHERE MEDICAL  
ADVICE IS FREE.

According to official statistics just issued, France, with a population of 38,500,000, has nearly 1,500,000 of indigent persons, of whom 375,000 are inscribed as sick.

The country physicians are paid to attend them, and the total thus disbursed in 1895, the first year the scheme was practically in operation, amounted to 1,771,472 francs. Each one of the 12,000 practitioners received, on an average, about 150 francs.

The average to each physician is thirty patients, with three or four visits to each at about thirty cents (a franc and a half) for each visit. The total expense includes hospital service, transportation, instruments, and medicines, and amounted to 4,898,680 francs. This expense was shared by the community, the department, and the state. The first article of the law states in effect:

"Every sick French person without resources receives, free of charge, from the community, the department, or the state, medical care at home or in a hospital. Sick foreigners without resources are also included if the Government has entered into a treaty of reciprocal assistance with the nation to which they belong."

## TRIBUTE TO MARKHAM.

CHICAGO, June 18.—Rev. William E. Danforth spoke at the Washington Park Congregational Church tonight on Markham's poem, "The Man With the Hoe." He said: "Whether the fault of poetry in our age lies with the age or the poet is a matter for debate, but it is a fact pertinent to the controversy that a poet has arisen out of the West with a virile message which the world is not only ready to hear, but also to spread from heart to heart. We are justified in saying that no poetic stanzas have so written themselves on the soul and sense of our world for years."

## GOLD COMING IN

Yellow Metal Continues  
to Arrive From North

Successful Men Return From the Klondike.  
Purser Reports on the Same  
Gained.

SEATTLE, Wash., June 23.—The second big lot of returning Klondikers since navigation opened reached here this afternoon on the steamer Humboldt. There were 275 of them, and a few of them brought considerable gold dust. Others were reported to have drafts for large amounts, while others came home without riches. No accurate estimate of the amount of gold dust can be made, for the reason that the figures given by the different passengers vary widely, ranging all the way from \$250,000 to \$500,000. Still more diverging are the conjectures as to the amount of drafts. Including drafts and dust, the estimates range from \$500,000 to \$1,250,000.

Purser Carroll claims that he had in his custody \$280,000 in dust, and estimates that there was about \$300,000 more in the different staterooms not turned over to him. At 4 o'clock this afternoon \$150,000 worth of dust had been deposited in the United States Assay Office. A \$50,000 lot was billed at an express office for shipment to Philadelphia.

The two largest dustholders are H. Wolstee and Daniel Saunders, of England, who have between them in checks and drafts \$600,000. This amount represents claims they sold in the spring.

## The Men Who Worked.

Said a prominent man of the Fourth of July committee yesterday: "Sufficient credit has not been given the even half dozen men who worked so hard to carry on the ball that was such a complete success. These gentlemen were Dr. M. E. Grossman, Porter Boyd, George Paris, Joseph A. Gilman, Fred C. Smith and W. H. Hoogs. They not only acted in the evening, but were on duty in the daytime doing some real, genuine, heavy work. They are the men who should be complimented. This refers to the general arrangements and conduct of the ball alone. When there is mention of the decorations, we all take off our hats to George King. He is the prince at that business."

## Sailor Boy Artist.

There is on exhibition at the Seaman's Club a portrait of Bismarck. It is quite well done in colors, and is the work of a boy sailor aboard the German ship Wega, which is to be in port for some time. Some people in the city have been attracted by the evidence of genius in the boy, and think that some means should be provided for his training. The picture will remain as a permanent ornament to the Seaman's Club, along with the prints of McKinley, Dewey, Schley and other heroes of the day.

## The Lone Mariner.

Capt. Adolph Frietsch will not go any further in his journey in his small boat around the world. The reason is that the company which he is advertising has failed to keep its agreement in regard to remittances. He intends to sell his boat as soon as possible and take the next steamer back.

## INVINCIBLE GERMANY.

Emperor Says State is in a Condition of Assured Peace.

BRUNSBUTTEL, Prussia, June 18.—Emperor William distributed the prizes at the Elbe regatta today and afterward dined on board the Kaiser Bismarck with the owners of the competing yachts. In replying to a toast to his health, His Majesty referred to the advance in yachting, pointing out that it was a sport Germans could cultivate because "Germany was able to live in a state of assured peace."

"We can only do that," he said, "because we now stand on the basis won for us by our grandfather and father. We know that the firm co-operation of United Germany represents in the world an invincible power, which has to be reckoned with. The German people are like a thoroughbred horse, which suffers no one to bridle him but will maintain the foremost place. May we with all our strength continue, as heretofore, to march in the van. To that I raise my glass."

RECOMMENDED FOR CHOLERA  
MORBUS.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Bros., Cincinnati, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by Benson, Smith & Co., Ltd., wholesale agents for H. L. and all druggists and dealers.
